EDMONTON, ALBERTA, TUESDAY, APRIL 28, 1953

Level Land News Briefs

Mrs. A. A. Dick of Calgary was visiting with relatives and SDA church on April 18. Mrs. Dick is the wife of the late A. A. Dick who was one of the old pioneers who came to this district in 1908, and was the father of A. L. Dick who is living in this district.

Mr. and Mrs. Vernon Kaiser of Delacourt were visiting with their parents, Mr. and Mrs. R. Huether on April 18.

Mr. and Mrs. James Suelzle returned last week after spending the winter in California. They are having an auction sale this week.

Mr. and Mrs. Herman Sell of Calgary are now employed on the farm of Mr. John Leiske.

Most of the members of the SDA Dorcas Society attended the Southern Dorcas Federation in Calgary on April 19. Reports were given from each society. Work done in each local was exhibited.

Local representatives were from Calgary, Level Land, Hanna, Medicine Hat, Lethbridge and Castles.

Mrs. Suelzle Chosen As SDA Delegate

LEVEL LAND — The young people and adults of the Seventh Day Adventist Church of this district have selected a delegate to represent the local congregation at a pan-American youth congress set for June 16-20 in the San Francisco Civic Auditorium.

Approximately 18,000 Adventist youths from churches in all parts of North and South America are expected to attend the five-day event. In San Francisco, the delegates will participate in education and career clinics, panel discussions on current moral problems and how Christian youth can better cope with such problems, and various other workshops on topics of international interest. They will also hear many well known speakers.

It was announced last week by the local elder that Mrs. Clarence Suelzle, a good worker in the church, was the chosen delegate.

Later announcements will appear in this paper regarding the youth congress in San Francisco.

Beiseker News Briefs

Mr. and Mrs. Felix P. Schmaltz, Mr. and Mrs. Joe Ternes and Mr. and Mrs. Dave Lang motored to Red Deer on the 10th to attend the wedding of Francis Lemay, brother of the three sisters. From Red Deer they continued to Edmonton and Nisku to visit Mr. and Mrs. Doug Brown and Mr. and Mrs. Ron Selzer respectively.

Cameron Lang, son of Mr. and Mrs. Dave Lang is reported as doing fine in hospital in Calgary after having his hand and arm caught in a washing machine. It should only be a short time before he returns home.

Mrs. A. A. Wald is progressing nicely after an operation in the Holy Cross Hospital.

The village council have sent Mrs. Elaine Runyan to Edmonton for a two weeks' course in Civil Defence.

Born to Mr. and Mrs. George N. Schmaltz, a daughter, April 16.

The Ladies' Bridge Club was entertained by Mrs. Velker last week. Mrs. Doris Wright won high honors, while Mrs. Mary Hagel won second high. A dainty lunch was served by the hostess. Next week the club will meet at Mrs. Edith Vaghills'.

Western Filly Trains For Queen's Plate

VIRGINIA FAIR, Western Canada's juvenile champion of 1952 gallops over the frozen racing strip at Edmonton, as she trains for the 94th renewal of the Queen's Plate at Toronto, May 24. The filly, which is owned by J. C. Charlesworth of Edmonton, is the West's main hope for Plate laurels.

Lions Stage Fashion Show

BEISEKER — On Thursday, April 16, the members of the Beiseker Lions Club shed their fur and took to the frock of the weaker sex to stage their annual fashion show. The evening consisted of the showing of some of the latest fashions, to the piano stylings of Mrs. D. B. Olsen, coupled with selections by the Beiseker Lions Band and various skits during the intermittent intervals which took place. While the fashion parade consisted of evening gowns, afternoon frocks, tailored suits, sports wear, house dresses, negligees of different styles, bathing suits as well as all around working wear.

The accompanying list gives the names of the participants as they appeared during the show:

1, Patricia Hagel; 2, Roberta Schissel; 3, Wilhelmina Tidy; 4, Frances Lount; 5, Freda Lavoie; 6, Darlene Olsen; 7, Gordene Reddekopp; 8, Adline Velker; 9, Carolina Schmaltz; 10, Amy Troidle; 11, Florence Wright; 12, Kay Lohrke; 13, Maxine Ternes; 14, Sarephine Schwartzberger; 15, Wilhelmina Tidy; 16, Freda Lavoie; 17, Beulah Schmaltz; 18, Leona Schmaltz; 19, Flossie Selzer; 20, Darlene Olsen; 21, Adline Velker; 22, Catherine Schmaltz; 23, Ruth Berreth; 24, Greta Berreth; 25, Allene Skuce; 26, Vera Rau; 27, Jacqueline Krenzler; 28, Louise Vogheil; 29, Cramma Haase; 30, Bathing Beauty, Miss Unknown; 31, Bathing beauty contest—(a) Miss Canada; (b) Miss U.S.A.; (c) Miss Mexico.

Level Land News Briefs

William Tribbasser, who came to this district in 1908 died in the Calgary General Hospital April 23 at the age of 82 years. Obituary will be in this paper next week.

Canadian forest industry scientists have developed a new process for making chemical pulps that will reduce wood consumption up to as much as 50 per cent.

Beiseker Home and School Notes

The regular monthly meeting of Beiseker Home and School was held in the school auditorium on Monday, April 13. A nominating committee was named to nominate officers for the ensuing year. On the committee are Mrs. D. B. Olson, Mr. L. W. Bunyan and Mr. Ed Schwartzberger.

After the business of the meeting was completed Jerry Verhaest entertained with a selection on the accordion and was warmly encored.

Mr. Walker, the shop teacher, gave an interesting and informative talk on the crafts of different countries through the ages and different methods of instruction. He invited those assembled to visit the workshop to see the work being done there. The articles on display showed the interest and pride the pupils had in their construction, and were admired by all.

Sandwiches and coffee were served.

Lions Donate Hall Chairs

BEISEKER — The Beiseker and District Memorial Co. accepted with pleasure from the Beiseker Lions Club a donation of 50 new chairs, and hope they will add to the comfort and convenience of all those who, because of the occasion, necessitate their usage. These new chairs, called stacking chairs, are simple in design and construction and yet possess a smart appearance while at the same time retaining the most important and most desired quality, comfort. Their tubular pipe construction and curved hardwood veneer coupled with that famous lions International emblem make it quite easy to distinguish them from the others. So after this when the entire lot of padded chairs are occupied, why not try one for comfort?

Canada's population should advance beyond the 20,000,000 mark this year.

Dr. Day, Liberal Candidate For Acadia

Dr. A. M. Day, widely known and highly respected doctor of Consort, was nominated to contest the enlarged Acadia constituency in the federal election slated for this fall, at a convention held in Hanna in the Memorial Hall on April 15th.

Over 150 delegates attended the meeting, representing all parts of the constituency.

Also nominated were George Haverstock, school superintendent of Castor, and Frank Gattley, Consort auctioneer. The latter withdrew in favor of Dr. Day.

Dr. Day has been a Liberal candidate in two previous elections. The seat is presently held by a Social Creditor, but Liberals throughout the constituency are confident that their candidate will be elected this fall.

Re-elected president of the Acadia Federal Liberal Association was Wm. Gibson of Delta. Secretary-treasurer is J. G. Odell of Hanna, and vice-president Mrs. J. P. Ferguson of Trochu. Regional vice-presidents are W. O. Turner, Hanna; Jack Frey, Oyen; George Haverstock, Castor; J. P. Ferguson, Trochu; J. L. Fuller, Alliance; Wm. Taylor, Stettin; W. Bachor, Mirror; Bruce Scott, Rumsey; H. Seltors, Federal, and Vic Nesbitt, Provost.

Harold Riley, QC, Liberal candidate for Calgary North, addressed the meeting. He likened the federal cabinet to a football team, the captain of which was the Prime Minister, Louis St. Laurent, and emphasized that the team had an international as well as a national reputation as the greatest cabinet Canada had ever had. He pointed out that no matter how good a team was, to be successful it required reserve strength, and suggested that this was an excellent opportunity for the Acadia constituency to add such a strength.

Miss Una MacLean, president of the Alberta Young Liberal Association, brought greetings from her organization. W. J. Edgar, president of the Alberta Liberal Association, spoke briefly and assured the delegates of the full co-operation and support of that association in the coming fight. J. P. Connors, Alberta organizer, spoke on organization.

Chairman of the meeting was President Wm. Gibson, of Delta, and delegates were welcomed by I. F. Shacker, mayor of Hanna. Wires were read from the Hon. George Prudham and J. Harper Prowse.

Standard News Briefs

Mr. and Mrs. W. J. Connors are the proud parents of an infant son, born April 13th.

Mr. T. McGowan underwent an operation April 18th in the Holy Cross Hospital in Calgary.

Mrs. T. Fraser, Mr. and Mrs. Wirt arrived home from the U.S. where they have been visiting.

Mr. B. Green and Mr. S. Castella are home from up north where they have been working for the winter months.

The official opening of the new Marshall Wells Hardware store, owned by Nielsen and Madsen was held with sales Friday and Saturday. Coffee was served to guests and pressure cookers were drawn for both days. The winners being Wilhelmina Northcott and Mrs. C. B. Mellisen. There was a grand attendance for both days. Friday evening Mr. C. V. Madsen entertained his staff and also Marshall Wells' staff.

Local Easter Service Impressive

GIBBONS — Forty-two communicants partook of Holy communion in the Gibbons Anglican Church on Easter Sunday.

Stately lilies lent their elegance to the altar while lovely daffodils decorated the pulpit and organ. A new Credence table was blessed before the Communion service began, and during the singing of the last hymn all the children attending the service, about fifteen, came forward to kneel at the altar and receive a blessing. The Rev. H. G. MacDonald conducted the service.

Trucker And Truck Escape Unscathed

BON ACCORD — Frank Everitt, local produce trucker, had a narrow escape from serious injury when his truck accidentally left the road and toppled on its side in a water filled ditch last Tuesday morning, April 7th. Two tractors were needed to get the truck back on the road. There wasn't even a dented fender from the mishap.

Church Circle No. 5 Plan Entertainment

Circle No. 5 of McDougall United Church WA are presenting the "Family Album" in the church school room on Friday, April 17, at 8:15 p.m.

This is an entertainment in which all present take part in the singing. Come and bring the family.

Mr. Bowlen and Mrs. Mooney will arrive in London on May 26 and attend the Queen's garden party on the 28th, at which they will be presented to the Queen.

After the Coronation, Mr. Bowlen will tour several agricultural fairs. Mrs. Mooney will pay a brief visit to the continent.

Their journey home will begin on the 16th of June at Liverpool when they embark again on the Empress of Scotland, eventually arriving in Edmonton about June 27th.

A tribute was paid to the memory of the late Mr. R. D. Purdy of the Alberta Wheat Pool, during which the entire assembly stood for one minute's silence.

The Gibbons 4-H Garden Club was represented at this conference by Mrs. Earl Toane, and the newly-formed Namao 4-H Garden Club by Mrs. Elmer Bell, both of whom anticipate a very busy season with their young girls.

Mr. G. Risk and family arrived from Carleton to take up residence in the H. H. Layridsen residence.

Mr. L. H. Lavridsen from New Westminster is in town visiting old friends.

Mr. E. Rutledge (Emmy Bowen) was visiting Mrs. T. McGowan for a few days.

Mr. H. Hamilton of High River was in town during the week visiting old friends.

Many of the Standard Legion and Auxiliary members motored down to Meadowbrook where they were entertained by the Gleichen Ladies' Auxiliary.

Mr. and Mrs. O. Bergquist, Mr. and Mrs. Paul Pierrard and Mr. T. Fraser motored to Edmonton. Mrs. T. McGowan, Mrs. O. Bergquist, Lorna Larsen, John Larsen celebrated birthdays during the week.

LT.-GOVERNOR, PREMIER PLAN EXTENSIVE CORONATION TRIPS

EDMONTON—Extensive itineraries are planned by both Lt. Governor Bowlen and Premier Manning when they journey to England for the forthcoming Coronation.

Mr. and Mrs. Manning will leave Edmonton during the third week of May and will sail from New York on May 26 aboard the liner Queen Mary. They will dock at Southampton on the first of June, arriving in London in time for the Coronation. Following the Coronation, Mr. Manning will deliver a series of lectures at various centres throughout England, following which they will tour the British Isles and pay a brief visit to the continent. They expect to leave England for Canada about the

18th of June, arriving in Edmonton around June 28th.

Mr. Bowlen, accompanied by his daughter, Mrs. Mary Mooney, will be gone for about six weeks. They will leave Edmonton on the 11th of May for Montreal, where they will embark on the liner Empress of Scotland on May 15.

Greeting them at Liverpool will be R. A. McMullen, Alberta's agent-general in England, who will escort them on a tour of Scotland and Wales.

4-H Clubbers Met At Olds

GIBBONS — More than 40 4-H Garden Clubs were represented at Olds for the Leadership course during Easter week. Seventy-two leaders and assistant leaders enjoyed the two-day course and gained valuable information from lectures and demonstrations.

Some of the speakers were Miss Margaret Fraser, supervisor of Girls' 4-H Clubs, Provincial Department of Agriculture; Mr. P. McCall and Mr. Hargreaves, prominent horticulturists at Edmonton and Brooks, respectively.

The Alberta Wheat Pool was represented by Mr. Ryason of Red Deer and Mr. Ness, the first of whom gave interesting information on judging of gardens and achievement days. Mrs. Norma Grey and Miss Lewis, authorities in freezing of foods and home nutrition demonstrated in their particular lines.

An enjoyable evening was highlighted at the banquet on Wednesday evening, beautifully served at long tables lit with white and yellow candles, and Easter decorations of yellow chicks, pussy willows and daffodils.

Speakers at the banquet were Mr. Black and Mr. Putnam, and two 4-H Garden Club girls who were winners at the Toronto Royal in 1952.

Industrial Area Layout Plan Completed For Metropolitan Area

EDMONTON—At the April meeting of the Edmonton District Planning Commission, Mr. A. Soetaert, Mayor of Morinville and representative of that town on the commission, was elected chairman succeeding Mr. H. N. Lash, Director of Town and Rural Planning, who asked to be relieved of that office owing to pressure of other duties.

Mr. S. H. Payne, representative for the Town of Beverly, was elected Vice-Chairman.

The appointment of a further technician to bring the technical staff up to requirements came before the meeting and the qualifications desirable in such an appointee were discussed. It had been suggested that a man with an agricultural background (to help in the preparation of a plan for the entire Planning Districts) might be desirable, but, as some members felt that in view of the activities of the Department of Agriculture and other agricultural agencies, agricultural qualifications might not be necessary. The matter was left in abeyance pending a report from the rural municipalities in the matter.

The subject of revisions in the Industrial Zone in the Strathcona area of the Metropolitan Outline General Plan again came up and the Commission adopted a recommendation of the Steering Committee which provides for the retention in that zone of 741 acres of undermined land and the addition of 1,836 acres around the fringe of the zone set out in the original plan.

The Commission also decided that additions beyond those now approved should be taken care of in a plan for the Municipal District of Strathcona to be drawn up by the Interim Development Board of that district with the assistance of the technical staff of the Commission.

Final approval of the Commission was given to the addition of the following regulations to the regulations governing land use in the "A" and "B" Zone Greenbelts of the Metropolitan Outline General Plan:

A.—That notwithstanding the above regulations, any parcel containing at least two acres but less than 20 acres, and title to which was registered in the Land Titles Office prior to the adoption of the Outline General Plan on April 9, 1952, may be divided into two parcels, provided, however, that neither of these latter parcels may be less than one acre in area.

B.—In cases where more than one dwelling has been erected on one registered parcel of land prior to the first day of April, 1953, the owner may sub-divide such parcel, to provide one registered parcel for each such dwelling, providing that the local authority has no objection to such action.

The Director reported that a detailed layout for that part of Industrial Area in the N.W. Sector of the Metropolitan General Plan outside the City limits had been completed by the staff. This area lies partly within each of the Municipalities of Town of Jasper Place and the Municipal Districts of Stony Plain and Morinville, and the adoption of the plan by these municipalities will be requested in order that it can come into effect.

Six-year-old Boy Rides Bike 3½ Miles

SALISBURY — Because he wanted to visit his grand-parents, Mr. and Mrs. J. Stannard, Murray Hipkin, 6 year old son of Mr. and Mrs. George Hipkin, started out on the 3½ mile journey on his tricycle and got there. Murray was not missed and his parents were surprised when a telephone call informed them that their son was safe and his father got him with the car and took him home.

U. of A. 4-H Club Has Successful Season

The University of Alberta 4-H Alumni Club—first of its kind in Canada and already one of the most active clubs on the campus, recently wound up its year's activities with a banquet in the King Edward Hotel. In line with other functions which this club has carried on, almost 100 percent of the members were in attendance.

The chairman, President D. Boyer, in summing up the year's activities pointed out how the club had undertaken panel and group discussions on various problems and had entertained visiting club members by taking them on tour of the campus. Highlight of the year, though, stated Mr. Boyer, was Varsity Guest Week-End. To this event the Alumni Club extended an invitation to all 4-H members in Alberta, set up a display depicting Alumni activities and a welcoming committee to meet members coming to the campus. The results were nothing short of staggering, for when the smoke cleared, of the 5,000 visitors that day, who had an insight into U. of A. activities, over 1,000 were 4-H'ers.

Guest speaker at the banquet, Mr. R. M. Putnam, Assistant Deputy Minister of Agriculture, commended the club on its worthwhile objectives and the attempt it had made to meet them in the past year. However, he warned members of the pitfalls many clubs fell into to taking the easy road and thus gaining popularity through carrying on a light and not too constructive program. In speaking of what the future held in store for the club, Mr. Putnam felt it could do much to stimulate interest in young people furthering their education and in helping alumni members to become conversant with some of the problems facing agriculture today. In this connection he stressed the value of extension work and added that he hoped that some members at least would consider this field when thinking of their future careers.

At a final meeting held for the election of new officers, some of the aims of the club for the ensuing year were discussed. Foremost among these were:

- (1) 100% membership of all 4-H'ers on the campus, regardless of faculty or school.
- (2) Supplying of member speakers to summer 4-H activities.
- (3) The encouragement of 4-H members to take advantage of further education as offered by the University and Schools of Agriculture.
- (4) A fitting welcome for former 4-H members registering at freshman week in the fall.
- (5) A study of the 4-H program in Alberta.

The executive has been elected to carry out this program as follows:

President, Buck Godwin, Sanguo; Vice-President, Don Robertson, Didsbury; Secretary, Don Boyer, Carbon; Program Committee, Betty Brown, Nanton, Howard Roppel, Rockyford; Publicity, Ross Gould, Rosalind, Joyce Hastings, Forestburg; Honorary President, Dr. McCalla, Dean of the Faculty of Agriculture.

A full-grown wolf in the Canadian wilds weighs on the average 100 pounds.

A healthy six-foot Canadian male should never weigh more than 150 pounds, according to medical statistics.

Where does the money go?

At times most of us have looked at purse, wallet or bank-book, and wondered: "Where does the money go?"

Each year we at Imperial add up the company's bills to see what happened to the money we received in the previous 12 months for the gasoline, fuel oil and other products we sell. Here's where each dollar of Imperial's 1952 income went:

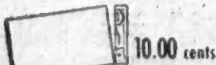

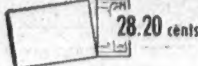

CRUDE OIL and other raw materials we bought, plus freight, took more than half of each dollar.

OPERATING expenses took more than 28 cents. This was the cost of searching for and producing crude oil, and of manufacturing and marketing the hundreds of products we supplied for thousands of uses. Throughout the year high quality products were made available where and when you needed them.

TAXES to provincial and federal governments took 10 cents. And this did not include gasoline tax, which—depending on where you live—took from 24 to 36 cents out of every dollar you spent for standard grade gasoline.

DIVIDENDS paid to shareholders for use of plants and equipment amounted to 4.06 cents.

TO REPLACE worn out equipment and to make sure that we can supply your needs in the future 3.42 cents was put back into the business.

THE LIGHTER SIDE

Test of Patriotism

"What would you call a perfect citizen?"

"A man who feels like singing the National Anthem when making out his income-tax return."

Speaking of Waves

First Sailor: "How did you like your first trip across the Atlantic?"

Second Sailor: "It was perfect. Why, if it wasn't for that up-and-down motion I wouldn't have known I was on the ocean."

Struck by Her Feminine Charm

New York paper: "The girl put up a plucky fight and in the end the bandit was overpowered."

Probably hit him with her vanity case and it flew open."

Short Sermons

A famous preacher once remarked to his congregation that every blade of grass was a sermon.

A few days later he was engaged in mowing his lawn, when a witty member passed by, and remarked, "That's right, doctor, cut your sermons short."

Poorly Timed

Jones suggested to his wife that they go over to the neighbor's house and watch the baseball game on television. For three hours they watched the game, then sat through a wrestling match for another hour. Finally, Mrs. Jones said:

"Harry, don't you think it's about time?"

"Say," interrupted her husband, "did you come over here to jabber or to watch television?"

By Way of Verification

"You would scarcely think it," we said, "but Henry Ford has built to date more than 15,000,000 cars."

"I can well believe it," shared J. Fuller Gloom, the hater of his species, "for I have jumped out of the way of the most of them."

Request

The second course of the table d'hôte was being served. "What is this leathery stuff?" demanded the corpulent diner.

"That sir, is a filet of sole," replied the waiter.

"Take it away," said the diner, and see if you can't get me a nice tender piece of upper, with the buttons removed."

One Advantage

"I'm glad my wife is built long and thin, sorter like a shoe string, as you might say," stated Gap Johnson of Rumpus Ridge.

"Why?" inquired an acquaintance.

"Well, she don't shade the corn while she's aboeing of it like a fat woman would."

Forewarned

"I desire to ask your daughter to be my wife," said the young man.

"Well don't get me mixed up in it," said the father. "If you don't get along together, I don't want you to say it was my fault."

Out of the Rut

"Remember, darling, you won't always be a junior clerk in a moldy old office."

"That's a fact! I've already got a week's notice."

Picayune Debate

The Opposition in Parliament is getting rather hard-pressed to find something interesting to talk about when they waste hours of the time of Parliament discussing the transfer of a Canadian National Hotel Manager from Winnipeg to Brandon. They have also carried this matter into the Railway Committee, and gave an amusing but not very edifying exhibition recently.

Donald Gordon, President of the Canadian National Railways, was called before the Committee and questioned as to why the transfer was made. J. M. Macdonald, PC Member for Toronto-Greenwood, and E. D. Fulton, PC Member for Kamloops, gave a cordial exhibition of what they consider their duties as members of Parliament. Their questioning of Donald Gordon was impertinent and insulting, and although Mr. Gordon could hardly be blamed for being annoyed, there was no reason for him to lose his temper and act like a spoiled child.

Parliament will have to sit for twelve months and then not be able to do the business of the country if they are to be held up by the Opposition for days listening to complaints so picayunish to the country's economy as the transfer of a hotel employee.

Busy Bees

How many bee-hours of labor go into the production of one pound of honey?

Bee experts have been trying to find the answer to this question for almost half a century and all of them come up with a different answer. One father and son team, after 40 years of observing bees under varying conditions, credit each working field bee with an average day of eight hours gathering honey at the rate of 20 flowers per minute and 20 minutes an average trip.

Another authority, reports C-I-L Agricultural News, rates bee activity slightly lower. He states that a bee often visits 10 to 20 flowers per minute and makes only 10 trips a day. If it were possible for a single bee to gather all the nectar for one pound of honey at this rate, it would have to work 365 days a year for more than eight years.

Bees have been observed gathering honey at all hours. Some have been seen leaving clover fields at 9:22 p.m. Others worked basswood from 4 to 5 a.m.—just before sunrise. From other similar observations it was concluded that a bee's working hours were determined by the time of day flowers surrounding the hive yielded the most nectar. Some yield most of the day while others, such as buckwheat, only part of the day. Some blossoms close early in the afternoon and do not open until late in the morning.

Sugar content of nectar varies in different kinds of flowers or in flowers of the same species from season to season or even in the same flower from day to day.

The distance of the source of nectar from the hive is another important factor in honey production. Bees will go eight miles if they cannot find nectar nearer home. But because of lost time and reduced load, this is not profitable and bees prefer to work a source of nectar with a low sugar content near the hive before they will fly to flowers with a sweet nectar much farther away.

Men Of Valor

He was a hunch-backed, dwarfish man, with a frail body, but he possessed one of the profoundest mathematical minds of all time. Arriving in steerage from Germany, Charles P. Steinmetz came to be known as "the wizard of Schenectady." He was a genius in electrical theory and research at the General Electric Company. When Harvard bestowed an honorary degree upon him, it was said, "He is the foremost electrical engineer of the world."

Notes and Comment

Farm deliveries in the prairie provinces from August 1 1952, to January 26 totalled 433.5 million bushels, 279.9 million bushels of which was wheat and 153.6 million coarse grains. During the same period last year marketing totalled 367.6 million, with wheat accounting for 249.1 million and coarse grains 118.5 million bushels.

Teaching, A Job Or A Career?

By W. E. FINBOW, Department of Education

Everyone likes to feel that he is needed. Everyone likes to feel that his job is worth-while. The difference between putting in time and filling a need is the difference between a job and a career. The need for teachers today is very great; and the rewards of teaching—if you are the right sort of person—are very near and warm and real.

Teaching is a big job. Not everyone can measure up to it. You need to be healthy, both physically and mentally. You should be at least a little brighter than average. You need self-control and lots of it. You should have a wide-awake interest in what is going on in the world. You should be enthusiastic, and be able to rouse enthusiasm in others. You need to be able to stick with a problem. Above all, you must have integrity; your students must know that your thinking is honest, and your decisions fair. If you feel that you possess most of these qualities, there is a good future, a very good future, waiting for you in the teaching profession.

Teaching, like every other worth-while profession, involves a certain amount of grief. You must be able to adjust your behaviour to the needs of a group of young people, no two of whom are alike in any mental or emotional characteristic. And you will have to adapt yourself to the very special needs of those unhappily adjusted children who are to be found, a few, in every classroom. The problems that a teacher must solve, then, are delicate, difficult and highly complex problems. And sometimes, especially for the beginning teacher, the physical environment in which these delicate problems must be solved can be anything but an encouraging one.

Teaching is difficult work, but its compensations are unique. We have to think of money, of course. There was a time when teachers were poorly paid; nowadays you will receive a competent income, an income more secure and certain than that of any other profession. If you wish to engage in further study and better your qualifications, or enter some field of specialization—and for teachers there is every opportunity, to do so—your income will increase accordingly. In education, the field is wide open to talent.

More important is the personal satisfaction that accrues to those who work constantly with children. To watch them grow, in competence and alertness and sensitivity, from day to day, and year to year, to see them enter every walk of life and "make good" and know that you have had a hand in the process—this is a very special kind of reward, and one that is offered by no other occupation besides teaching. Such a reward spells success in the very best meaning of the word.

Alberta needs teachers. We need workers especially in that area of teaching which requires the highest degree of competence—the elementary school. When you think about a career, think very earnestly about teaching. It may be your finest opportunity.

Go East, Young Salmon!

(From Toronto Saturday Night)

An experiment with wide biological as well as economic interest is currently being conducted in Alberta. Sockeye salmon, those peculiar fish with the stubborn spawning habits, were introduced into the St. Mary Reservoir in the southern part of the Province last July. Some 80,000 sockeye salmon fingerlings were hatched in the Provincial Government Fish Hatchery of the Department of Lands and Forestry at Calgary. They were then piped into the Reservoir from metal tanks in which they made the journey from the Hatchery.

The biologically interesting fact is that the sockeye salmon of the Pacific Ocean lives most of its life in salt water and enters fresh water only to spawn and die. The Fisheries Branch feels, however, that the fish can and will adapt itself to an exclusively fresh water existence.

The fingerlings have grown from eggs received from the Montana State Fisheries Branch. They were developed to the fingerling stage and then planted in the Reservoir instead of being allowed to mature at a rearing station, the apparent custom of men who know the ways of fish.

If the salmon experiment works, more fingerlings will be planted in other Alberta lakes. This winter 10,000 of them will be studied at the Calgary Hatchery. The sockeye salmon—whose reputation as a game fish is well established—may be one more in Alberta's long list of tourist attractions.

The Bible Today

Finally, be ye all of one mind, having compassion one of another; love as brethren, be pitiful, be courteous.—I. Peter, III; 8.

NOTHING BUT THE TRUTH by Russ Arnold

R.B. FORREST, of Lake Ozark, Mo. HOOKED THE SAME FISH TWICE!!
The first time he hooked the 1 1/2 lb. bass, his line broke. AN HOUR LATER HE SAW THE SAME FISH PULLING HIS FLOAT—SO HE RE-HOOKED ON TO HIS LINE!!

FAMOUS TRIPLETS of Marlboro, Mass., RECENTLY CELEBRATED THEIR 84th BIRTHDAY!!

AN AVERAGE AMERICAN'S MEAT CONSUMPTION IS 145 POUNDS PER PERSON PER YEAR!! In the early days however, history shows that we ate about 300 pounds of meat each, a year!

THE SHERIFF OF Fairplay, Colorado, IS NAMED JOHN LAW!

Voice of the People

JOHN BARLECORN'S BUDGET ONE MAN'S OPINION

A good many people go to jail, half or more of them for offenses against the liquor act, and quite a proportion of the rest for offenses committed when partially or wholly under the influence of liquor. Still, the province gets \$14 million or so per year profit out of liquor. It is used for roads, bridges, hospitals and wonder of wonders, for schools. There is even a small item, \$75,000 for an institution to reform alcoholics. Next thing we'll endow a few churches and missions with whisky money. Perhaps, the whole \$14 million should be used for such purposes.

The provincial government should have a special part of its yearly accounts giving a true account and balance sheet for the loss and gain in liquor. It might read something like this:

Profit	
Gross revenue from sale of liquor	\$14,000,000
Loss (direct and indirect)	
Cost of jails (pro rata of prisoners)	\$2,420,037
Cost of police (pro rata of prisoners)	1,640,184
Property losses due to crime	1,560,629
Care of families of jail inmates	1,380,516
Loss by death (auto accidents, murders, fire, etc.), at \$10.00 per person	3,315,487
Medical expenses due to John Barleycorn	1,580,101
Shortened lives due to aforesaid John	2,103,046
Net profit	1
Total	\$14,000,000

This shows a net profit on hand of \$1.00, a really handsome fund. Perhaps by judicious advertising next year, increased liquor sales would reach this net profit and in a few years, it might be used as a revolving self-liquidating fund, to be used to start financing a few hotels. (That self-liquidating is really good). Hurrah for John.

CHARACTER ANALYSIS

Judging just by his pictures, Russia's new boss, Georgi Malenkov, is not the Cossack type. His eyes are those of a hunter and marksman. The mouth shows he is a 40-a-day cigarette smoker. I predict in him a man who will start great revolutions and wars by air, without warning.

E. A. ABRAMS.

First I wish to congratulate you on the wonderful paper which is issued weekly. I want to express my opinion on the awards given to Master Farmers. I would say it is very good to have this. But what gets me is that these people are normal until they get the award.

Once they get this award they feel that there is no one like them and that everybody is just SCRUFF. I wouldn't say this applies to all Master Farmers.

In closing I would give this advice to these Master Farmers: You were just like one of us at one time, so in your good fortune, don't forget the less fortunate.

STRICTLY HONEST.

OLYMPIC MOVE DECRIED

What's this talk about eliminating women from future Olympic competition? They are just as much a part of the pageant as good sportsmanship.

The threshers came to our place on short notice, and caught me unprepared. It was during the time when meat prices were the highest, and, as per usual, my supply was low.

I remembered I had some canned sausage, and my two pre-school age grandsons saw me heating the sausage, and asked if they could have some, as they were very fond of it. I replied they would have to wait till the men ate and if any was left they could have some.

During the meal the older of the two pipes up with "Don't you guys eat too much sausage. Granny said we could have some, if there was any left." I'll never know if any of the men heard him. However, no one said anything, and kept on devouring all that was before them. We laugh over it now!

Junior got some sausage.

LETTER TO LOUISA

16-Year-Old Girl Finds New Love Interest When "Steady Joe" Is Away

DEAR LOUISA — I am a girl of sixteen years old, I have been going steady with a very nice young man for two years.

He is well liked and respected by everyone. Joe went away for the winter and I only saw him every month or so. I have been going to school and live in town. I am considered a pretty girl with a swell personality. Because I love dancing and am a popular dancer. I didn't stop going to dances just because Joe wasn't here. I got going with a gang my older brother went with. One of the boys started to pay my way into the dances and ask me to eat supper and go home with him. He is also a very nice fellow, he is employed in the town I live in. He isn't very well acquainted with Joe. I have more or less been going with him for three months. I know he thinks a lot of me. While I've been going with him he has never asked about Joe and I have never told him that I'm supposed to be going steady with Joe. Joe has come home again to stay, so I have tried to settle down again. He recently was told about me going with this other fellow and asked me about it in a very nice way. I didn't deny it. He told me if I was going to continue going with the other fellow he would have to stop coming to see me, he said he feels as if he could never go with another girl. I think a lot of Joe and also like the other fellow very much. When I go with the other fellow I have more fun than when I go with Joe, but I know for a fact people will respect me more if I go with Joe. Could you give me your advice on whether I should tell Joe I don't want to go steady or stick to him? I know it would please my mother if I continued to go with Joe, she doesn't know about this matter.

J.F.

Answer: Your problem, my dear girl, is as old as the hills. Like millions of girls your own age and before you, you have made the mistake of centering all your attentions on one boy friend. You have mistaken the fancy of youth for the real heart-love of a mature adult and as soon as your boy friend of two years' standing goes away for a while you have found others who are just as attractive to you, and attracted to you as steady Joe. You were much too young at 14 to start going steady and now at 16 you are still too young to have your dates and attention monopolized by one boy. The world is big and you have still got several years of gay, care-free life ahead of you. Don't make the tragic mistake of getting tied down to one man now and find within a few years that the man who at 14 you thought

was your one big romance in life, will be, a few years later replaced in your affections by another.

Enjoy your young life, J.F., while you can and when you are matured in your thinking you will find the right man.

P.S. Listen carefully to your mother's advice as to the boys with whom you keep company, but remember that the choice of a husband will have to be yours and not your mother's.

Louisa

University Of Alberta To Receive Dr. Orr's Library

EDMONTON—University of Alberta officials revealed recently that the somewhat extensive medical library of the late Dr. Harold Orr of Edmonton had been willed to the University. Dr. Orr had been president of the Canadian Medical Association when he died in December at the age of 63.

The library contains several medical journals complete from 1889 to 1952. The interest shown by Dr. Orr in the University's medical library was always keen and he contributed many journals to it during his lifetime.

Sorum Appeals His Sentence

EDMONTON (BUP)—Lorang Sorum, 26, sentenced to be hanged at Fort Saskatchewan jail June 16 for the slaying of an oil company executive, recently appealed against his conviction and sentence through his lawyer.

Whooping Cough	1	2
Septic Sore Throat	—	2

435 284

There were no cases reported from outside the city.

PICKLE PILFERER IN PICKLE

CHICAGO—Pickle-loving George Terik, 63, was in a pickle for picking a pickle out of a pickle barrel, at Carson A. Gallagher's delicatessen—and not paying for it. Terik, a transient, admitted taking the pickle—valued at 25 cents. The judge charged Terik with disorderly conduct and fined him \$107—to be worked out at the county jail at the rate of \$2.50 a day. Sympathetic police, however, presented Terik with a gift—one dozen dill pickles.

Navy Officers Plenty Of Variety; Lt. Buzza Plants Wheat In Korea

For most naval officers it would be a peculiar kind of job, but for Ordnance Lieut. P. C. (Buzz) Buzza, 28, of Winnipeg, a two-and-a-half-month stint as liaison officer on a United-Nations-held island off the coast of Korea was "just like old times."

Lieut. Buzza, ordnance officer in the Iroquois, spent five Second World War years in the Canadian Army and this soldier turned sailor fitted comfortably and naturally into the life on the island. He shared a tent with two U.S. Marine Corps officers and took in his stride the ever-present bugbears of Army life—mud, rain, winds that threatened the stability of their tent, full food and a scarcity of fresh water.

Lieut. Buzza was attached, for the two-and-a-half months, to the headquarters of the West Coast Island Defence Element. He was responsible for co-ordinating operations at sea with the land effort in the "Battle of the Islands". The job of naval liaison officer so far has been entirely a Canadian commitment. The first was an officer from HMCS Cayuga, Lieut.-Cdr. D. M. Saxon, of Victoria. Lieut. Buzza came next, and was succeeded recently by Lieut. A. R. McClung of Edmonton, Halifax and HMCS Nootka.

In addition to his assigned duties Buzza took on a few that weren't in the book. He ended up as a combination intelligent officer, liaison officer, engineer, bomb disposal expert, crane driver, wheat farmer and promotion man for Canada. The only thing he didn't do—and much to his regret—was fly. A member of the Winnipeg Flying Club, he holds his private pilot's license.

The wheat-farming was part of his promotion campaign for Canada. In his kit, "Buzz" had a small jar of wheat, a souvenir from the farm of his wife's uncle, Mr. R. Stobie, of Portage, La Prairie. One afternoon, he dug up a narrow plot of Korean soil and planted some of it to demonstrate the vitality and fast-growing qualities of Canada's best.

To his great surprise, it sprouted and was a flourishing six inches high when he left. The responsibility for tending the wheat he turned over to "O'Malley", a 14-year-old Korean boy who looked after the tent and the officers' laundry. He was called "O'Malley" for no good reason except that his proper name was a little too unwieldy for everyday use.

Blond Lieut. Buzza has had an interesting service career. In 1940 he joined the Lord Strathcona Horse (Royal Canadian), a tank regiment, as a drummer boy. He fought in North Korea, Italy, France, Belgium, Holland and Germany and finished as a troop sergeant.

Demobilized in 1945, he enrolled at the University of Manitoba and in October, 1946, entered the University's Naval Training Division as an ordinary seaman. He transferred to stoker in May, 1948, and was promoted to cadet in September of the same year. In September, 1949, he entered the RCN, commencing full-time service on graduating from university the following spring. From then until joining Iroquois in January of this year he underwent training at sea and took various ordnance courses with the RCN and USN.

Bossie's Modern Plumbing

Mrs. R. M. writes in the Brockton Times: "My little nephew had been on a vacation on the farm. When he came back, I asked him if he'd had a nice time and he replied, 'Yes, it was great, just watching the farmer pulling the cow's faucets.'"

Wheat Pool Appoints Ben S. Plumer As Chairman

EDMONTON—T. E. Oliver, who has been assistant manager of the Alberta Wheat Pool, has been appointed acting manager to fill the vacancy caused by the death of the late R. D. Purdy. This announcement was made by Ben S. Plumer, chairman of the Board of Directors. Mr. Oliver has had 42 years' experience in the grain elevator business. He was born at Bradford, Ontario, and came to Calgary as a lad in 1908. The next year he entered the employ of the Alberta Pacific Elevator Company. In 1912 that company became the Alberta Pacific Grain Company under the management of John I. MacFarlane, who later became president. In the years Mr. Oliver spent with that company he arose to a position of considerable importance.

In July 1926, Mr. Oliver entered the service of Alberta Pool Elevators as assistant manager, the organization then being launched on its extensive elevator building program. In 1929 the pooling operation was united with that of the elevators and Mr. Oliver was appointed assistant manager of the combination.

In making the announcement Mr. Plumer said on behalf of the directors: "We bespeak for Mr. Oliver the same high type of help and support which has been accorded our managers in the past, and fully expect, and have every confidence, that our organization will continue to be a credit to every person connected with it."

Home & School Group Holds Meeting

EAST EDMONTON—The East Edmonton Home and School meeting was held in the East Edmonton School with Mrs. Edwards, vice-president in the chair. East Edmonton won the shield for this month.

Mrs. W. McLean was appointed as official to the Home and School convention, to be assisted by Mrs. Robert Briggs.

A nomination committee was formed in preparation for the coming election of the next slate of officers for the Home and School. Mrs. Gielen, Phone 38959, Mrs. Stannard, 972-7621, or Mrs. Edward, 972-8933, are the ladies to phone if you care to nominate anyone for office.

Mr. W. J. Haight, public relations officer of the Edmonton post office, showed a very interesting film on Eskimo life and one of the post office, called "Business in the Mailbag." Both were enjoyed very much.

Last month the children of East Edmonton School held open house for parents to show their enterprise work. It was very interesting and was well attended. It is hoped they will do this again next year, as the mothers enjoyed it so much.

Mr. Alborg, minister of education, will be the next Home and School guest speaker. The meeting will be held in the Salisbury School. The lunch committee, finding they had some surplus lunch money, served an extra nice lunch and all free for an Easter treat.

FUA Meets To Hear Interesting Reports

CROSSFIELD — The regular monthly meeting of the Crossfield FUA local was held in the Community Hall on April 8 at 8 p.m. with 50 persons present. The Bulletin Board and Warble Fly Spraying committees reported on their progress.

In a report from the local Co-op Store it was stated that they will give FUA members the same discount on farm supplies that is offered in other districts. Locals and members were advised to see the local Co-op manager for further particulars.

The Social Committee was instructed to make arrangements for a picnic for members and their families on Friday, June 12 — Farmers' Holiday. It was decided to cancel the May meeting and hold the next meeting on the 10th of June.

Following the business session, Mr. Bruce Ellis of Hualta and former Junior FUA President, one of the two young men in

Canada to win the 1952 Nuffield scholarship, which gave him a six-month trip to Britain where he lived with British farmers and studied their methods, showed 160 colored slides, with a running commentary on the scenery, crops and livestock from all parts of the British Isles, and reforestation in Scotland.

Some of the highlights of his talk were that 98 per cent of the British farmers belong to their Farmers Union which has a membership fee of from \$25 to \$50 per year, and is a voluntary organization as our own; that each

acre of land with three or four applications of commercial fertilizer will pasture one cow for a year; that wheat yields over 100 bushels per acre where commercial fertilizer and a heavy application of manure was used; that the standard weight of oats is 48 lbs. per bushel and oats weighing 56 lbs. per bushel is common.

Farmers told Bruce that last year was the driest harvest in memory and yet their grain had 18 per cent moisture when threshed. All grain goes to dryers before being stored.

Mr. Ellis' slides were excep-

tionally clear and were particularly interesting to persons familiar with Old Country landmarks. The chairman moved a hearty vote of thanks to Mr. Ellis for his most interesting and informative address. Lunch was served and a social hour followed.

May Clinics For Crossfield Area

CROSSFIELD — Mountain View Health Unit No. 7 reports that clinics will be held at the following points in this district during May:

Carstairs, United Church Hall, Tuesday, 26th.
Cremona, Legion Hall, Tuesday, 5th.

Crossfield, United Church Hall, Thursday, 7th.

Didsbury, Health Unit Office, Thursday, 14th and 28th.

Olds, Agricultural School, Friday 8th and 22nd.

Sundre, WI Library, Tuesday, 12th.

All clinics 2 to 4 p.m.

The Canadian coyote, unlike most animals, usually mates for life. Hunting is done in pairs.

"This new Ford Truck Cab is really something!"

THE MOST Comfortable TRUCK CABS EVER BUILT!

Now... Ford Truck Engineering Introduces New Driverized Cabs

Here's the newest, most advanced idea in truck design... *Driverized* Cabs—planned with the driver in mind... designed to reduce fatigue, strain and discomfort... built to promote greater driving ease and higher efficiency. Check over the all-new driving features... see for yourself how *Driverized* Design makes Ford Economy Trucks the most comfortable, most efficient trucks on the road—the best trucks to drive from the driver's point of view!

NEW VISIBILITY ALL AROUND

New one-piece curved windshield with an increase of more than 50% in glass area gives wide-angle visibility for safer driving. Full-width rear window—over 4 feet wide—and bigger side windows give an increase of 19% in all-round visibility.

NEW COMFORT SEAT

Finest truck seat ever built—over a full 5 feet wide with non-sag springs—provides roomy comfort for three men. New built-in shock snubbers smooth out roughest bumps. Seat adjusts forward and back—seat-back angle also adjustable.

NEW CAB POSITION

New forward positioning of engine and cab over the longer, softer, more flexible front springs gives greatly improved driver comfort.

PLUS THESE NEW FEATURES OF DRIVERIZED CAB DESIGN

- Larger side windows with sills at arm-rest length!
- Wider doors open right out for easier entrance!
- New insulation seals against engine noise, heat and fumes!
- New ratchet-type door locks... quieter, safer, more durable!
- New fully weather-sealed construction... dust-tight, fume-tight, water-tight!
- New curved instrument panel with easy-to-read "Cockpit" cluster!
- New heating and ventilating system for added all-weather comfort!
- New push-button door handles... easy to operate, more dependable!

Completely NEW for '53

FORD TRUCKS

economy

Carry more and carry it farther... FOR EVERY TRUCKING DOLLAR

NEW STEERING EASE

Shorter wheelbases and wider front treads make all '53 Ford Trucks easier to steer than ever before... shorter turning radius... more manoeuvrability... greater front-end stability.

V8 POWER

FOR SMOOTH HANDLING

Famous Ford V-8 engines deliver plenty of lively power for tough hauls... give smooth, dependable performance mile after mile.

EFFORTLESS SYNCHRO-SILENT SHIFTING — Synchro-Silent Shifting on all models means much less effort for the driver; smoother operation in traffic. Automatic Transmission* and Overdrive* available in all F-100 Series. (*at extra cost).
